CONDITION OF THE MARKETS.

Lively Day in Speculative Wheat with Wide and Frequent Fluctuations.

Many Sensational Rumors Afloat-Closing Values Considerably Lower-Corn and Oats Quiet-Pork Fluctuations.

MONEY, STOCKS AND BONDS.

Sugar Trust Slumps Heavily-Bad Break in Atchison-Lively Day in New York. NEW YORK, Sept. 27.-Money on call was tight, ranging from 512 to 10 per cent., the last loan being made at 6, closing offered at 6.

Prime mercantile paper 5@712 per cent. Sterling exchange quiet but firm at \$4.8334 for sixty-day bills and \$4.88 for demand.

The total sales of stocks to-day were 295,-884 shares, including the following: Atchison, 57,730; Delaware, Luckawanna & Western, 12,439; Denver, Texas & Fort Worth, 9,200; Erie, 10,280; Lake Shore, 11,-381; Louisville & Nashville, 11,540; Missouri Pacific, 15,470; Reading, 12,656; St. Paul, 22,-200; Union Pacific, 21,657; Western Union,

12,272. The stock market was more active today, and has displayed more character than it has in many months, and the dealings were attended by much excitement. The final result of the day's operations, however, as far as the regular list is concerned, were generally only fractions. The feeling this morning was very hopeful, not to say confident, and the higher prices in London, with good buying from that center, with the continued favorable returns of earnings were influential in establishing a higher range of values at the opening. The market displayed a decidedly broadening tendency, the number of stocks traded in during the first hour being larger than at any time this year, while the volume of the business was on a corresponding scale. The local "bull" leaders were more active, and the increase in the number of orders executed for outsiders was very marked. Rumors from Boston in regard to the presidency of the Missouri Pacific made that stock the leader in the early trading, and it was soon followed by Lackawanna, C., C., C. & St. Louis, and some others, while Manhattan continued its upward march on rumors of a settlement of the claims of property-owners against the company. Putlman also displayed unusual strength on light dealings, and later Michigan Central joined the procession. Sugar Trusts were still weak, and made a material decline in the forenoon, opening. The market displayed a decid made a material decline in the forencon. which extended to about 3 per cent., but it seemed to have little or no effect upon the regular list, as no reason could be assigned for the drop, and the rest of the market was effectually divorced from its movements. After 12 o'clock, however, there

ments. After 12 o'clock, however, there were ugly rumors set affoat in regard to Atchison, and it was stated that the financial plan for the rehabilitation of the company would prove a failure, necessitating a receivership. A default on the October interest was also promised, while the reorganization scheme was to include a \$10 assessment. There was a flood of the stock for sale, and a break was started which only ceased when the stock had declined something over 4 per cent. Denials of the stories cir-culated were made, but they seemed to help the stock but little, and when the selling movement had exhausted itself the rally was feeble and could not hold. Sugar Trusts, which had given signs of inside sup-port, went down again, and its extreme loss was 812 per cent. These movements created great uneasiness in the room and the pressure to sell extended to all portions of the list, and before delivery hour all the advances of the forenoon were wiped out, and in most cases fractional losses addition were sustained. the notably strong stocks of forenoon, such as Jersey Central, Manhattan, Missouri Pacific, Lackawanna, and Delaware & Hudson, dropped rapidly, while the others kept pace, and in every case the opening figures were passed on the downward movement. The selling craze came to a halt toward delivery hour, and a reaction began which made some progress, notwithstanding the fact that money on call was bid up to 10 per cent. The activity disappeared from the market, however, and the movements became limited to small fractions generally, though in the case of Manitoba most pronounced strength was developed and it rose 2¹₂ per cent.

Manhattan, Jersey Central, and Delaware & Hudson rallied sharply,
and Sugar rose from 87⁵₈ to 90, and Atchison from 34³₄ to 36. The improvement in most of the list was slight, however, and the tone of the market at the close was un-settled and rather heavy. The final changes are quite irregular, while declines are

Railroad bonds responded to the improved feeling with more activity and a more de-cidedly strong tone, though the decline in the afternoon was also felt, and the final result of the trading is to leave most of the active bonds but slightly changed. The Fort Worth & Denver firsts were again prominent and contributed \$173,000, while the Mobile & Ohio general fours and the Erie seconds furnished \$129,000 and \$108,-000, respectively, to the day's total of \$1,-212,000. Gulf Colorado & Santa Fe seconds

rather more numerous but generally confined to small fractions. Sugar is down

612, and Cotton Oil and Short-line, 1 per

cent. each, and Atchison 3 per cent. The important advances include Manitoba and

Manhattan, each 3 per cent, and Jersey Central and Lake Erie & Western pre-

ferred, each 1 per cent.

Government bonds were dull and steady. State bonds were entirely neglected. Clos-

ing quotations were: Four per ct. reg. 1267s C., St. L. & P.115 Four per ct. coup. 1277s C., St. L. & P. pref 374 Four and a 42s reg1055s Clev'd & Col'mb's Four and a ¹gs coup 105 ⁵s Fort Wayne 156 ¹g Pacific 6s of '95... 118 Illinois Central ... 116 ³g Louisiana st'pd 4s 87 Missouri 6s.....191 Tenn. new set. 6s. 107 Lake Erie & West. 19 L. C., B. & Q......1084 NEW YORK, Sept. 27.-Bar silver, 931sc.

TRADING AT CHICAGO. The Ups and Downs of the Market, with the

Range in Prices of Leading Articles. CHICAGO, Sept. 27 .- The speculative trade in wheat was again of large volume to-day, but the market was very unsettled and irregular, prices fluctuating frequently and rapidly. The opening was weak and 14@3se off, the weakness starting really on the curb yesterday. News from the outside was conflicting, and some of it very sensational. The crowd early were disposed to fight all hard spots, and a majority of local speculators looked for a break. Fluctuations in the later dealings took a wide range, and the market was "wobbly," ruling strong and weak by turns. Minneapolis advised that the advance in wheat had stopped flour business, and it was said that orders here for Duluth wheat were 4@5c too low for present working. Early London cables were 12d dearer, with a good inquiry reported and few sellers. Late or closing Liverpool cables

the board noted a penny advance in cash wheat and all futures higher with a strong, active demand. A St. Louis dispatch said that receiving-houses there reported country dealers as selling wheat more freely. One of the early bull features loads at Baltimore for export. This news put the market up sharply about noon, but the report was afterward contradicted and a substantial reaction followed. Light export clearances gave to the market a decid
little below last year's at Boston, St. Louis and a few smaller places, but generally much larger, the aggregate of bank clearings outside of New York showing a gain of nearly 7 per cent.—only 6 per cent. at Boston, Philadelphia and Chicago, taken of nearly 7 per cent. at all other points. Until Thursday the stock market had been comparatively inactive, though not declining, but a sharp advance has since appeared, but the market a decid
little below last year's at Boston, St. Louis and a few smaller places, but generally much larger, the aggregate of bank clear-ings outside of New York showing a gain of nearly 7 per cent.—only 6 per cent. at Boston, Philadelphia and Chicago, taken of nearly 7 per cent. at Boston, Philadelphia and Chicago, taken of nearly 7 per cent. at Boston, Philadelphia and Chicago, taken of nearly 7 per cent.—only 6 per cent. at Boston, Philadelphia and Chicago, taken of nearly 7 per cent.—only 6 per cent. at Boston, Philadelphia and Chicago, taken of nearly 7 per cent.—only 6 per cent. at Boston, Philadelphia and Chicago, taken of nearly 7 per cent.—only 6 per cent. at Boston, Philadelphia and Chicago, taken of nearly 7 per cent.—only 6 per cent. at Boston, Philadelphia and Chicago, taken of nearly 7 per cent.—only 6 per cent. at Boston, Philadelphia and Chicago, taken of nearly 7 per cent.—only 6 per cent. at Boston, Philadelphia and Chicago, taken of nearly 7 per cent.—only 6 per cent. at Boston, St. Louis and a few smaller places. Science and the proposition of nearly 7 per cent.—only 6 per cent. at Boston, St. Louis and export, and the propos

edly bear turn just at the finish. Final closing figures were 114@15sc lower for the day. September and the more deferred deliveries showing greater weakness, comparatively, than October and December. A fair speculative trade was witnessed in the corn market, and the feeling developed A fair speculative trade was witnessed in the corn market, and the feeling developed was a little firmer. Trading was in the main local, the principal feature being the heavy selling of October and buying of December by a prominent local trader, which narrowed the difference, and the two were selling at times at nearly the same price. The market opened at yesterday's closing prices, was firm and gradually advanced 4c, ruled steady and closed with near months about the same and off months ac higher than yesterday. The oats market was without new features, trading being light and mainly for May delivery. Very few outside orders were received to either buy or sell, and a quiet and steady feeling prevailed. In mess pork only a fair trade was reported. Prices ruled 10a/12½c higher early, but an unsettled feeling prevailed later and prices ruled 10a/12½c higher early, but an unsettled feeling prevailed later and prices while November advanced 15a/20c and January ruled steady. In lard trading was comparatively light. Early the feeling was stronger and prices were advanced of .02a.05c, but the market weakened again and the advance was lost. In short ribs less activity was noticeable. The feeling was easier and prices declined .05a.0712c on the near deliveries. The leading futures ranged as follows:

Boston sales of wool have been 2.980.000 pounds for the week, with prices about the demand is more active. At Philadelphia manufacturers are also buying, though with caution. No present the very large supply, and the demand is more active. At Philadelphia manufacturers are also buying, though with caution. No present the very large supply, and the demand for iron and steel still meets the very large supply, and the changes in prices are all upward. Pig-iron can still be had at \$16.75 for Southern and \$17 for Northern No. 1, \$16 for No. 2 and \$15 for No. 2 and \$15 for No. 2 and \$15 for moli, but for Northern No. 1, \$16 for No. 2 and \$15 for No. 2 and \$15 for moli, but for Moli, but for the demand for iron and steel still mee

Cheese stronger; receipts closely sold; Western, 734@9c.

DUN & CO.'S WEEKLY REVIEW. The Year of Prosperity Still Rolls Merrily

Along-Higher Values Established. NEW YORK, Sept. 27 .- R. G. Dun & Co.'s weekly review of trade says: Business indications this week are generally favorable. The exports from New York for four weeks exceed last year's by 25 per cent., and a like gain elsewhere would mean an excess of exports over imports for the month approaching \$9,000,000, for the increase in imports here has been but 312 per cent. But that excess would not meet the month's allowance for interest, under-valuations and freight charges, so that foreign exchange has advanced during the week half a cent. The bank of England has raised its rate from 4 to 5 per cent., and that bank lost \$855,000 specie for the week; the bank of France also lost \$2,275,000, and the Bank of Germany \$2,124,000. These evidences of foreign demand, with the low state of reserve at New York, render the monetary future less clear, and the rates for money have advanced during the week fully 1 per cent. on call, with increasing caution in commercial loans. The Treasury has helped during the week by disburing \$2,100,000 more than it has taken in, and the reports from interior points all indicate an ample supply of money for legitimate needs, and no stringency. The demand has been more active at Philadelphia, Chicago, Cleveland, Detroit, Kansas City and Milwaukee, but the supply is still sufficient, and collections are, on the whole, improving. The volume of business is a little below last year's at Boston, St. Louis

to professionals, though its advances should indicate stronger confidence as to the mon-etary future, and also as to an early settle-

ment of rates. Manufactures are already improving. At Boston sales of wool have been 2,980,000 pounds for the week, with prices about steady, and the demand is more active. At Philadelphia manufacturers are also buying, though with caution. No present change is noted in the goods market. The demand for iron and steel still meets are not so large as was expected. The price is low, at the best, but there is nothing as yet to modify the belief that the supply for the year will much exceed all demands. Corn has fallen over 12c and oats 14c, with moderate trading. The Liverpool corner in cotton is threatened by the general stoppage of mills threatened by the general stoppage of mills and rapid movement from American plantations, port receipts thus far exceeding last year by 150,000 bales and exports by 54,000, and the price has declined 3-16d. Coffee is 4c lower on sales of 312,000 bags, and oil 1c lower on smaller trading. Pork products are rather stronger and butter 2c higher. The general tendency of prices is upward. Signs of greater activity in all directions are encouraging.

The business failures number 192, as compared with a total of 198 last week and 193

pared with a total of 198 last week and 193 the week previous. For the corresponding week of last year the figures were 220.

TRADE IN GENERAL.

Quotations at St. Louis, Philadelphia, Baltimore, Cincinnati and Other Points.

ST. LOUIS, Sept. 27.-Flour-Holders firm, but emand, light and trading inactive. Cash very strong, but trading light. Hogs—Good demand and higher; common and light, \$3.25@4.65; packing and butchers', \$4.25 @4.50. Receipts, 1,070; shipments, 1,300.

INDIANAPOLIS MARKETS.

Frade Still Brisk Under Favorable Weather Conditions and It Being State Fair Week. Indianapolis, Sept. 27.

The wholesale men have little reason for complaint of the volume of business this week, as each day has brought in a large number of buyers, and each has made liberal purchases. The firm tone to prices as a rule and the easy tone to the money market, as well as the weather, are stimulants to trade. Dry goods men, the boot and shoe men, the hardware-dealers and the druggists especially have had a busy week. most of them working well into the night to get off their orders. In dry goods on all lines firm prices again prevail, and there is a healthy outbound movement to woolen goods. The hardware men and the irondealers report their trade as exceptionally good. The tendency to higher prices on all articles manufactured from iron and steel has improved trade, and the wholesale men are enabled to sell goods with a fair mar-gin; at least they will not make any important concessions to sell large bills. The grocers have been fairly busy, and prices of staple articles are steady—sugars excepted, which go off lsc. The millers are feeling better over the better outlook for the flour market, yet prices have not advanced to any marked extent. A few days later an improvement is looked for in this direction. The hide men are doing enough business to show better results, but prices are so low that the margins are very small, and thousands of hides must be handled to produce any profit worthy of note. The wool market rules steady at unchanged prices. The produce markets present no new features except a weakness in poultry on increasing receipts and a lighter de-GRAIN.

In sympathy with other markets, wheat advances, and an active demand for milling grades is shown. Corn and oats are weak on freer offerings. Bids on 'Change to-day ruled as follows: Wheat-No. 2 red, 80c; No. 3 red, 75@77c; rejected, 65c for poor, up to 72@73c for choice samples, the ruling figures being 68@70c; September, 78c; October, 77@7712c.

Telephone 530. A Word for the Much Maligned Detective.

Philadelphia Telegraph. That story of the capture of an Australian embezzler by a New York detective is about

the smartest piece of work in that line that has yet been reported. Certainly it is getting personal habits down fine when a member of the "crook" fraternity is so neatly caught, through laying his finger alongside of his own nose. Nothing sharper than this could have been invented by the most accomplished of the French sleuth-hounds. The incident shows how thor-oughly the personal habits and peculiarities of men are studied by the detectives of to-day. The average criminal might as well give himself up at once as to try to run the gauntlet of the shrewd fellows who live to run him down.

Prefers to Be Practical.

Let us turn from the question of render-ing the Missouri navigable to the more practical consideration of the elixir of life.
